Note: Revisions to the forecast of cash dividends most recently announced: None

Note: The Company conducted a split of its common shares on the basis of one share into three shares effective December 1, 2024.

The year-end dividend for the fiscal year ended March 31, 2025 is stated based on the post-stock-split amount. The total annual dividend is not shown, as the stock split prevents a simple aggregation. Assuming that the stock split was conducted at the beginning of the previous fiscal year, the second quarter-end dividend for the fiscal year ending March 31, 2025 would be ¥18 and the annual dividend would be ¥50.

## 1. Overview of Operating Results

### (1) Overview of Operating Results for the Nine Months Under Review

During the nine months ended December 31, 2025, Japan's economy remained on a moderate recovery path as the country pursued realization of a strong economy driven by responses to rising prices, risk management investment, growth investment, etc. On the other hand, the outlook remains uncertain, due to trends in international trade policies affecting domestic industries and signs of stagnation in stronger earnings for firms.

In our industry, the business environment continued to be favorable, with order volumes for plumbing and equipment construction firms remaining at a high level due to strong demand for building air conditioning (including large redevelopment projects), industrial air conditioning for domestic manufacturing sites, and data center investments. Meanwhile, due to work-style reforms in construction and logistics industries, rising building costs, and trends in international trade policies, Japan's construction market has begun to be affected by prolonged installation project timelines and reviews of investment plans. Close attention to future market trends is needed.

Against this backdrop, the Group launched its new Medium-term Management Plan, "move.2027," in the previous fiscal year, covering the period through the fiscal year ending March 31, 2027. Under this Medium-term Management Plan, we are pursuing management that is conscious of cost of capital and stock price. This Medium-term Management Plan sets new target management indicators such as ROE and PBR, in addition to the existing indicators of consolidated net sales and consolidated operating profit, clearly positioning capital cost management at the core of business operations. With this in mind, we have strengthened initiatives to boost production capacity through digital transformation and streamlining of production processes, while also enhancing sales strategies to capture the target markets defined in the Medium-term Management Plan.

Segment performance is as follows.

#### <Japan>

The volume of sales of air conditioning equipment decreased due to a decrease in the number of units shipped in the central air conditioning market, while we made efforts to capture strong demand for air conditioning installation projects and maintenance. As a result, net sales rose to ¥35,680 million, up 1.2% year on year. On the profit side, decreased equipment sales led to a decrease in profit, and labor costs and logistics costs increased. As a result, segment profit (operating profit) came to ¥6,015 million, down 14.3% year on year.

#### <Asia>

In China, worsening business sentiment and a stagnant real estate market have made conditions tougher and added to uncertainty. Amid these conditions, net sales for the nine months under review rose to ¥5,060 million, up 30.4% year on year, reflecting increased sales and installation projects of air conditioning equipment. On the profit side, although progress was made in recording profit from installation projects, fierce price competition in equipment sales persisted. As a result, the segment posted a segment loss (operating loss) of ¥33 million, compared with a segment loss of ¥228 million in the same period in the previous fiscal year.

As a result, the Group's net sales reached ¥40,666 million, up 4.0% year on year. On the profit front, operating profit totaled ¥5,999 million, down 12.1% year on year, and ordinary profit decreased to ¥6,573 million, down 11.2% year on year. Profit attributable to owners of parent fell to ¥4,392 million, down 20.5% year on year.

### (2) Overview of Financial Position for the Nine Months Under Review

Total assets as of December 31, 2025 stood at ¥91,903 million, up ¥6,906 million from the end of the previous fiscal year. This was mainly due to a ¥2,099 million increase in cash and deposits, a ¥3,308 million decrease in notes and accounts receivable - trade, and contract assets, a ¥2,999 million decrease in securities, a ¥3,963 million increase in property, plant and equipment, and a ¥5,839 million increase in investment securities.

Liabilities stood at ¥26,775 million, up ¥6,058 million from the end of the previous fiscal year. This was mainly due to a ¥1,248 million decrease in notes and accounts payable - trade, a ¥2,016 million decrease in income taxes payable, a ¥6,000 million increase in convertible-bond-type bonds with share acquisition rights, and a ¥2,243 million increase in other of non-current liabilities.

Net assets were ¥65,128 million, up ¥847 million from the end of the previous fiscal year. This was mainly due to the recording of profit attributable to owners of parent of ¥4,392 million, dividends of surplus of ¥3,673 million, purchase of treasury shares of ¥4,010 million, and a ¥4,003 million increase in valuation difference on available-for-sale securities.

**(3) Explanation of Consolidated Financial Results Forecast and Other Forward-Looking Information**

Based on the results for the nine months ended December 31, 2025 and future operating trends, the Company has revised the full-year consolidated financial results forecast for the fiscal year ending March 31, 2026, which was announced on May 15, 2025. For matters regarding the results forecast, please refer to the “Notice Concerning Revision to Financial Results Forecast” released today (February 10, 2026).
